WORK EXPERIENCE

University of Hawaii Foundation **July 2024 – Current**

SQL Programmer Analyst *Honolulu, HI*

- Delivered 40+ custom SQL data solutions each month for executive leadership and department stakeholders, enabling targeted outreach and strategic decision-making.
- Designed executive reporting solutions using Oracle PL/SQL and Crystal Reports to monitor organizational performance and business metrics.
- Developed and maintained Oracle PL/SQL packages supporting overnight ETL workflows, external integrations, scheduled imports/exports, and production data pipelines.
- Designed and implemented an automated Alteryx workflow integrating internal Oracle databases with the Mailchimp API for marketing campaign analytics.
- Automated recurring data ingestion and reporting workflows with Alteryx, reducing manual processing by approximately 16 hours per week and removing the need for an additional student worker position.

Honolulu Disposal Service **Jan. 2024 – July 2024**

Operational Risk Analyst *Honolulu, HI*

- Built an ETL pipeline to cleanse, transform, and load over five years of operational data into Microsoft SQL Server for enterprise reporting.
- Developed interactive Power BI and Streamlit dashboards that identified statistically significant underperforming assets through operational analytics.
- Performed statistical analysis and hypothesis testing on assets exceeding $200K in operating costs, supporting executive investment decisions.

ITS Help Desk **Jan. 2022 – Jan. 2024**

Technical Consultant *Honolulu, HI*

- Responsible for problem-solving client technical issues, utilizing Microsoft and Google suite products, creating reports, and monitoring UH user systems. Provided technical solutions and expertise.

PUBLICATIONS / ACKNOWLEDGEMENTS

"Kurtosis: a Poor Measure of Tail Risk" **Research in Progress**

- Developed 20+ statistical models of probability distributions using Python (without direct probability functions), Streamlit, displaying various kurtosis, mean, variance, and standard deviation relationships as parameters changed.

EDUCATION

University of Hawaii **May 2024**

Double Major in Economics & Psychology *Honolulu, HI*

- Focus on Econometrics, Statistics and Research Methods, with Dean's List distinction.
- Studied abroad in Florence, Italy, at Lorenzo de Medici during Fall 2022 and Fall 2023
- Studied at Columbia University's visiting student post-baccalaureate program in New York (Financial Correlations)

CERTIFICATIONS

Alteryx Designer Core and Advanced Certification. AWS Certified Cloud Practitioner.

SKILLS

ETL, Data Pipelines, Data Modeling, Workflow Automation, API Integration, Oracle, SQL Server, Python, Power BI, Streamlit, Alteryx
